X-SMART®

Best for: The first step towards full automation

The most economical automatic dispenser on the market, all the advantages of an automatic machine at the price of a manual dispenser.

“In the past, when we were using manual dispensers, it was not unusual to get a mistint — that’s going to happen in the paint industry. Since we started using the X-Smart, we have not had one single mistint.”

- Leading Hardware Co-op Manager

KEY BENEFITS

SELF-SERVICEABILITY
Simple design allows an average-skilled operator to perform most repairs. Easy-to-follow online videos provide guidance.

UNIVERSAL AND LOW-VOC COLORANTS
Patented airtight valve and tubeless design make it perfect for low-volume stores using ZVOC/LVOC colorants.

SIMPLE OPERATION
Bring your new employees up to speed faster. Easy to operate and maintain.

SMALL FOOTPRINT
Uses the same or less space than manual dispensers.

ACCURACY, REPEatability & RELIABILITY
Pump technology sets the standard for accuracy, repeatability, and reliability, ensuring that you provide customers with the right color every time.

REDUCED MISTINTS
Automation reduces the number of human errors associated with manual tinting.
One-of-a-Kind Pump Technology

DVX® Technology puts Accutinter dispensers head and shoulders above the rest:
• Robust construction eliminates component wear
• Valveless design eliminates need for annual calibration and alleviates need for maintenance
• State-of-the-art electronics provide unmatched speed and performance
• Builds on IDEX experience in designing durable and accurate pumps for health, fire, and rescue applications

Driven by ColorPro 4 Software

ColorPro 4 software optimizes the performance of your Accutinter dispensers:
• Automates paint tinting and record-keeping
• Reduces mistints through operator prompts
• Prolongs equipment life with maintenance recommendations
• Features friendly graphical interface
