

TI VELOCITY 6 

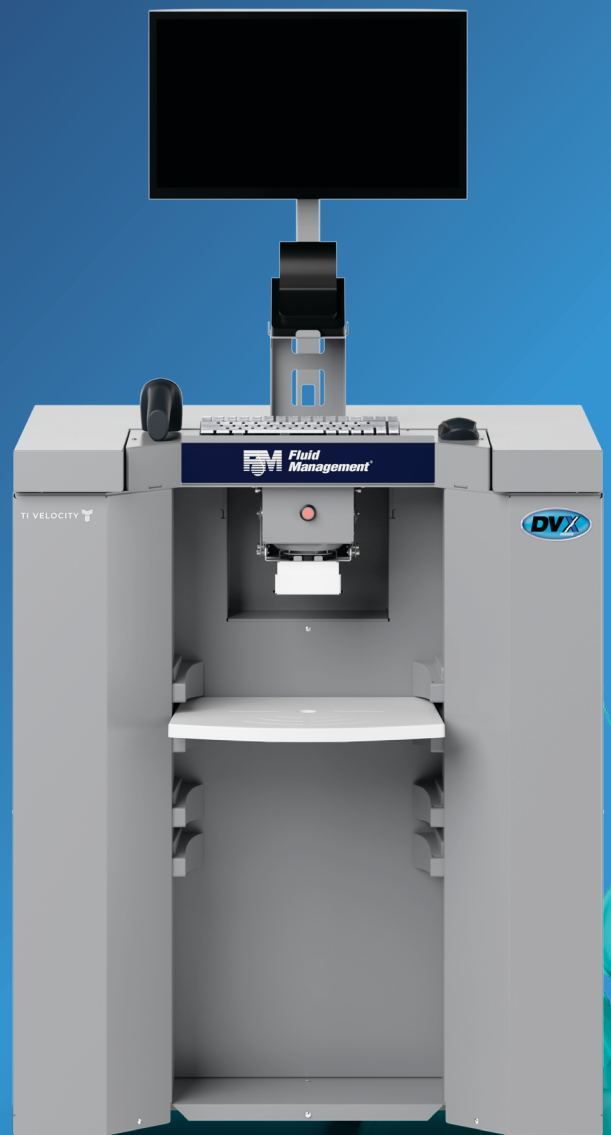

SUPERIOR PERFORMANCE, EFFORTLESS OPERATION

Speed, reliability, and accuracy are the defining qualities of the Accutinter Series. Combining affordability, a compact footprint, and intuitive design, it simplifies operation and streamlines maintenance for everyday use.

Building upon strong legacy, our latest range of simultaneous dispensers, the TI Velocity Series, combines years of customer insight and technology innovations to deliver unparalleled tinting solutions, reshaping the future of tinting.

Meet the **TI VELOCITY 6** —the first dispenser from the TI Velocity Series, designed for small and mid-sized hardware and paint stores. Engineered for ultimate reliability and effortless operation, this dispenser requires minimal maintenance, allowing you to focus on your customers.

Get ready to transform your tinting experience with the **TI VELOCITY 6!**

ENGINEERED FOR UNMATCHED RELIABILITY

- Unparalleled accuracy with proprietary DVX® pump technology
- Enhanced dispense consistency with shorter tubing
- Improved stirring and colorant conditioning with innovative blade design

BUILT TO PERFORM AND LAST

- 33% faster throughput than AT1600
- No recalibration required
- Dispense speed of up to 28 oz per minute

EQUIPPED FOR MINIMAL AND EASY SERVICE

- Easier access to pumps and canisters
- External power switch, eliminating the need to open the machine
- Access to service manuals, training, and tutorials through FM Academy

DESIGNED WITH OPERATOR CONVENIENCE IN MIND

3L CANISTERS

- Easier, faster, one-hand refill
- Fill level indicators for 1 and 2 quarts
- New sealed canister lid with improved grip

NEW CAN SHELF

- Adjustable shelf, with 2 positions
- Ergonomic Quart and Sample Adapter
- Under-shelf storage
- Easy conveyor line integration

NEW CAN LOCATOR LEDS

- Quick can alignment with 16 new locator LEDs, reducing mistints

CENTER DISPENSE CHASSIS

- Canisters accessible without moving accessories
- Improved lid operation with infinitely adjustable friction hinges
- Full support for 5G during dispensing without aisle obstruction
